Den - can you weigh in somewhere to let ATSDR upper management know how critical Karl's travel for two days (Thursday and Friday) next week is to the success of our health messages on this site? Thanks! Rich

All,

I just got off the phone with [REDACTED] I think it went well and she feels better about the results. The take home message from me was "We have a 5 yr old at home and if these were my water results I wouldn't hesitate to use water for all household activities (bathing, drinking, cooking, ...).

We discussed chromium, trigger levels, "U" qualified data, nitrogen, bacteria, and PAH results. I told her I plan to meet with her next week to discuss further and look at the wellhead. I also told her I'm waiting for "approved" travel orders and EPA's resident meeting schedule to be finalized before setting a time with her. I promised I would make sure to meet with her after morning childcare duties and before school's out (probably between 9:00-2:30).

She also asked if I could check with DEP (and maybe Cabot) about the status of her results. Do you have any updates from DEP and/or contact information?

Sincerely,

Karl
